Clearview Surgical Specialists and Vein Center

Specialized Services

As a trained and experienced general surgeon, Dr. Benak specializes in:

- The evaluation and treatment of benign and malignant disorders of the breast, thyroid, gallbladder, skin, digestive system and vascular system
- Advanced laparoscopic management of the appendix, spleen, colon, reflux disease, adrenals and hernias
- Diagnostic and therapeutic endoscopy including colonoscopy and upper gastrointestinal endoscopy
- Vein therapy including endovenous ablation, microphlebectomy and sclerotherapy
- Breast treatment including stereotactic and ultrasound needle biopsies, sentinel lymph node biopsies, and breast preserving therapy for cancer treatment

The Vein Center

Dr. Benak is proud to offer his patients relief from discomfort and swelling of legs and feet through cutting-edge technologies for functional and cosmetic vein problems. He is a vein specialist with the VNUS Closure™ procedure as well as other innovative treatments.

With minimally invasive procedures for spider veins and varicose veins as well as sophisticated vascular and endovascular procedures to repair distressed veins, patients experience a better quality of life, less pain and less embarrassment than what is commonly associated with varicose veins, spider veins and venous reflux disease.

After thorough discussion and a complete diagnostic evaluation, Dr. Benak will offer a comprehensive treatment plan to meet your needs.

Introducing Endovenous Ablation

Endovenous ablation is a quick, effective and painless outpatient procedure for the treatment of varicose veins.

Most patients experience immediate results and can resume normal activities the next day.

Although endovenous ablation of varicose veins does provide cosmetic improvement, the procedure typically is used to treat troublesome circulatory problems, such as aching, discoloration, irritation, inflammation and swelling of legs and feet.

Benefits include:

- Less painful than other vein procedures
- Little scarring
- No incision
- Quick recovery
- Fewer complications
- Veins are virtually invisible within 12 months of surgery

Office Hours

Our office is open 8:00 a.m. to 5:00 p.m., Monday through Friday. Our office is closed on Saturdays, Sundays and holidays. To make an appointment, call 770-207-5738.

Referrals

We accept patients referred by other healthcare providers. Due to insurance company reimbursement policies, a physician referral is required.

Insurance/Payments

Clearview Surgical Specialists and Vein Center accepts most types of insurance plans. We will ask for your insurance plan information before scheduling your appointment.

Your insurance plan may require a co-pay, which is due prior to seeing the physician. We are happy to file insurance claims for all your visits and testing.
